RE: Notice to file missing parts of non-provisional application.

I spoke with an assistant by phone on this matter and a few errors have been made. I made this filing using your e-PAVE system and it appears even after validation some things got goofed up. It was not my intention to request early publication, but the software would not allow me the option not to, and I would like to change that. I was surprised that the Oath or declaration was missing, again the validation should have caught that and if it had it was just typing my name into a field, not something of great effort. I would like to change the number of independent claims to 3 to address the overage, how would I go about that. The e-PAVE system also has a glitch in that it will not allow you to file as a small entity as the required document is not in the down load list, I was told by the help desk people not to worry about it. The e-PAVE system is great, but still has a few bugs in it and given that I would like to address the charges.

Thank you,

Glen Poss
